Subject: [STAFF] COVID Updates

Good morning everyone,

Here are a few updates from yesterday:

1. To help alleviate crowding of patients and staff, the ER screening station has been moved further down the hall (to the right of the ER admissions window). Remember to maintain a 6-foot distance between you and others when approaching the screening station – and allow for a few extra minutes to get through screening at peak arrival times.
2. After some discussion about limiting the amount of foot traffic to Med/Surg for mask sterilization – a second drop off location has been added for MOB staff. Masks can now be dropped off in the Surgery Hub for sterilization. Sterilized masks will be returned to that location as well. Please see Margaret Dalphond with any questions about where to drop masks off in the MOB.

Thanks,
Brian
